**CLAIM OF DR. HODGINS**

The Board of Health held its weekly meeting yesterday afternoon, there being present: Dr. Wood, president, Dr. Emerson, Attorney General Cooper, G. W. Smith, F. J. Lowrey and E. C. Winston.  
Lorin Andrews appeared before the Board as attorney for Dr. Hodgins, to present his claim of \$250 a month during the plague quarantine until notified of the close of his engagement as medical inspector on March 4. The claimant being present answered questions as to dates, etc.  
Mr. Cooper disputed the accuracy of statements as to time of certain inspections of detention camps.  
The president asserted that reports had not been made, at least regularly, but said the question was as to Dr. Hodgins' time of engagement. This he discussed on the basis that inspection did not overlap quarantine.  
Mr. Andrews said he could prove by Chester A. Doyle that notice of close of inspection was not given until March 4. The doctor worked for two months, doing necessary work, and was legally and morally entitled to pay for such. Morally, he should be paid for fifteen days of extra work.  
After Mr. Andrews and his client had retired, several motions were presented and finally the matter was left to a committee.

**RUSSIAN-AMERICAN SCHEME.**

Chicago, May 19.—The Record says: "There is before the State Department at Washington a plan submitted by the Russian Government whereby Russia and the United States could dictate wheat prices for the world," said J. M. Flynn of San Francisco at the Auditorium Hotel. Mr. Flynn is an agent of the Russian-American Company recently formed with a capital of \$5,000,000, and has been in consultation with the Russian Embassy in Washington for several weeks on matters pertaining to the company he represents. Continuing, Mr. Flynn said: "This plan was submitted during Cleveland's second term but it has rested without action till the present time. I know that the Russian Government is anxious that its overtures be met by this country. The trans-Siberian Railroad develops a territory, the principal products of which are wheat and cotton. Russia believes that with the cooperation of this country her wheat and cotton, the principal items of export also of the United States, could bring much better prices. England, which is a manufacturing country and has to import wheat to feed her workers, has kept prices down that labor may be cheaper and this has been a great detriment to Russia, Argentina and the United States. Russia's proposition was the result of the investigation made some time ago by M. de Witte, Minister of Finance, to discover the cause of the low price of wheat and cotton. They showed to the satisfaction of the Government that this low price was not due to increased acreage or lessened consumption, but was the direct result of American competition."

**MANY A MOTHER'S WISH.**

Many a mother of a peevish, restless, sickly child has wished that her little one was as strong and rugged as an Indian babe. Such mothers can make their children strong and well, if they rid the child's system of worms, which cause nine-tenths of children's troubles. Kickapoo Indian Worm Killer will do it. For centuries the Indians used it to make their babes rugged, powerful, fearless. What it has done for the child of the forest it will do for the child of the civilized—cure. That is what it has been doing for years. You can get it of your druggist for 25 cents. Be sure to get the genuine. The child's life is too precious to trifle with worthless substitutes.
